Dear Commissioner,

This petition is based on the fact that the abandonment in completing the Patent Application (Number 10/600,028) was unintentional. (MPEP 711.03(c), subsections (111) (C) and (D)). Copies of the Notice to File Missing Parts of Nonprovisional Application and of the Notice of Abandonment under 37 CFR 1.53(f) or (g) are included with this letter.

Please also find enclosed two compact discs labelled Copy 1 Replacement 04/03/2006 and Copy 2 Replacement 04/03/2006. As required by 37 CFR 1.52(e), I certify that each disc of this duplicate set is identical to the other discs in the set.

For each compact disc the machine format is IBM compatible; the operating system compatibility is ASCII format, Windows 98 up to Windows XP. There is one file on each compact disc, its file name is Patent Application; it is 20KB in size. These discs were created as replacements for earlier submitted non-complying discs on 04/03/2006 (April 3, 2006).

Yours sincerely,

An application number and filing date have been accorded to this application. The item(s) indicated below, however, are missing. Applicant is given **TWO MONTHS** from the date of this Notice within which to file all required items and pay any fees required below to avoid abandonment. Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a).

- The compact disc(s) submitted fail to comply with 37 CFR 1.52(e) in that they contain non-ASCII files. A new duplicate set of compact discs with only ASCII files is required. Any replacement compact disc submitted should be accompanied by a certification as required by 37 CFR 1.52(e) that each disc of a duplicate set is identical to the other disc of the set. If a directory of the disc could be printed, it is attached and non-ASCII files are marked on the directory listing.
- This application is objected to because it contains a data file on CD-ROM/CD-R, however, the transmittal letter does not list for each compact disc, the machine format, the operating system compatibility, a list of files contained on the compact disc including their names, sizes in bytes, and dates of creation, plus any other special information that is necessary to identify, maintain, and interpret the information on the compact disc as required by 37 CFR 1.52(e)(3). A statement listing the required information is required. Additionally, the disc(s) is not identified in the paper portion of the specification with a listing of all of the files contained on the disc. When portions of an application are contained on a compact disc, the paper portion of the specification must identify the compact disc(s) and list the files including name, file size, and creation date on each of the compact discs. See 37 CFR 1.52(e). Applicant(s) are required to amend the specification to identify each disc and the files contained on the disc including the file name, file size, and file creation date.
- This application contains compact disc(s) as part of the originally filed subject matter or as an amendment, however the information contained on the compact disc(s) is not one of the types of information that may be submitted on compact disc(s). (see 37 CFR 1.52(e)).
